bottles of Dr. Pierce's medicine, and that if she would do likewise she would feel ten years younger, too," There is one clause in Mrs. Schnetyer's letter, which voices the sentiments of thousands of sensitive women. "I knew that our home doctor would insist the

first thing on an examination, and that I would not submit to, unless I was dangerously sick, and then it would be too late to do any good." Many a woman in just such a case, realizing the danger she runs yet neglects medical treatment because she

shrlnks from the indelicate questionings, the offensive examinations and obnoxious local treatments which the home physician often thinks necessary. A WAY OUT

of this difficulty is opened for women by Dr. Pierce's invitation to consult him by letter, free. All correspondence is held as strictly confidential, and the written confidences of women are guarded by the same professional privacy observed by Dr. Pierce in personal consultations with women at the Invalids' Hotel and Surgical Institute, Buffalo, N.Y.
